

New Features

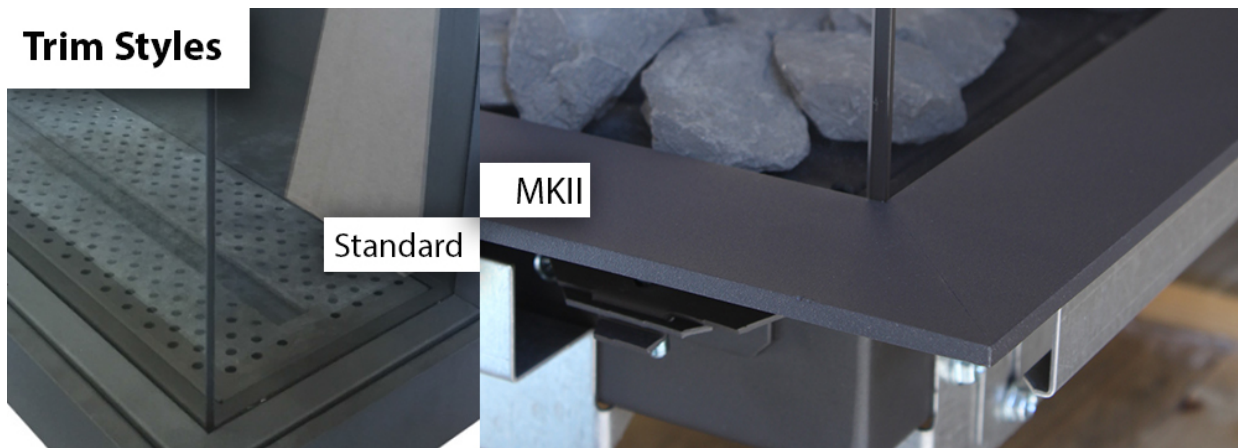

These new features will be in all new Element4 Fireplace models AND in MKII versions of current models noted below:

New models include: Lucius 100, Modore 75H, Tenore 100 and Modore 185.

MKII Models include: Bidore 95, Bidore 100H, Bidore 140, Lucius 140R, Lucius 140 1/3, Lucius 140 2/3, Lucius Tunnel, Modore 95, Modore 100H, Modore 140, Trisore 95, Trisore 100H, Trisore 140, Sky, Sky T, Modore 240, & Tenore 240.

New Designer Trim

- One seamless piece solid heavy gauge bottom trim
- Allows for cleaner look at install, especially when surrounding fireplace with stone

Tube Burner

- All new fireplaces and MKII models will have tube style burners (similar to current 95 models)
- Lucius 140, Modore 140, Bidore 140, Trisore 140, Lucius 100 and Tenore 100 to have double tube burner
- Flame turndown between 53% - 71%
- Allows for more robust looking flame and improved performance at high altitudes
- Improved flame appearance when using LP gas

E-Save Control System*

- One button start and stop
 - User friendly graphical remote
 - 4 E-Save programs which will save up to 40% on fuel – flame auto adjusts on a full 20 minute cycle. Adjustments are based on room temperature and remote thermostatic set point.
 - App control for Android and IOS available September 2016 (optional upgrade)
- *also available as a retrofit for Element4 fireplaces without E-Save
