Linear Direct Vent Fireplaces

CML-58 Contemporary Interior
CTL-58 Traditional Interior

CTL-58 Traditional Linear Fireplace

The CTL-58 linear fireplace works across a broad spectrum of home décor, taking a traditional woodburning log set and spreading it across the entire viewing area of a contemporary linear design.

Linear Direct Vent Fireplaces

With looks that can easily transition from contemporary to traditional, and with features that accentuate your home year-round, Stellar Hearth Products' linear direct vent fireplaces offer just the right touch to set your home apart from the rest.

Designed to be a great heat source without compromising the large view of the beautiful fire.

18,000 - 35,000 BTU's input/hr

Floating firebox for a true clean face look

AFUE heater rated

Perfect for both contemporary or traditional décors with added features for year-round appeal.

CTL-58 has a standard 10-piece traditional woodburning log set

CML-58 comes standard with a black interior and has interior options of glass media, 12-piece glass log set, mirrored firebox liner and lava stone that are perfect for more contemporary décors

Wireless remote/wall control standard

160 CFM fan option

Decorative front options to create the perfect look.

Choice of two decorative fronts in a Black Suede, Mahogany Brown or Gun Metal Gray finish

CTL-58 shown with Accent decorative front in Mahogany

Beautiful and authentic down to the smallest detail, the log set fills out the entire viewing area.

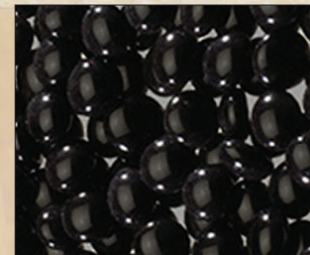

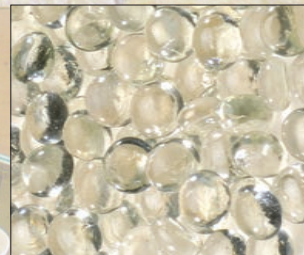

CML-58 Contemporary Linear Fireplace

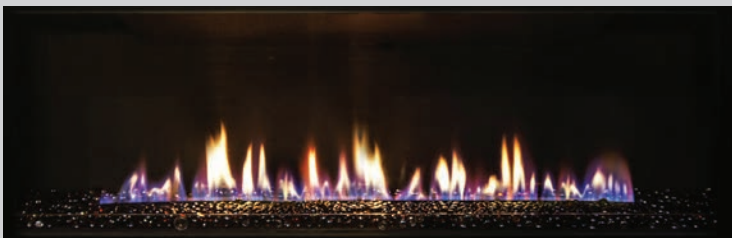

Complete with the optional glass log set, mirrored firebox walls and glass media, and along with the accent lights from below, you get endless iterations of the flames and lights bouncing around the firebox.

Tequila Glass Media

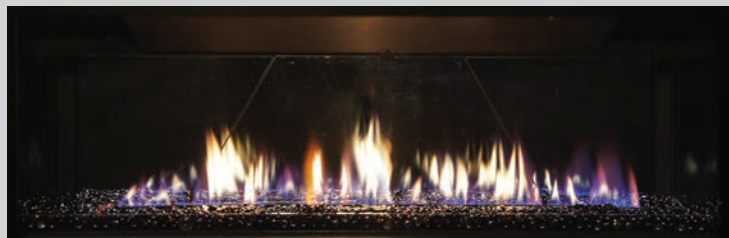

*Main Picture: CML-58 with optional CML-GLASS-WALLS,
CML-GLASS-LOGS and Glass Media*

CML-58 with Glass Media

Inspired by a minimalist look, the base model comes with a standard black interior and is shown here with glass media.

CML-58 with CML-GLASS WALLS and Glass Media

Get yet another amazing effect as the flames and lights reflect again and again and again across the optional mirrored firebox walls and glass media.

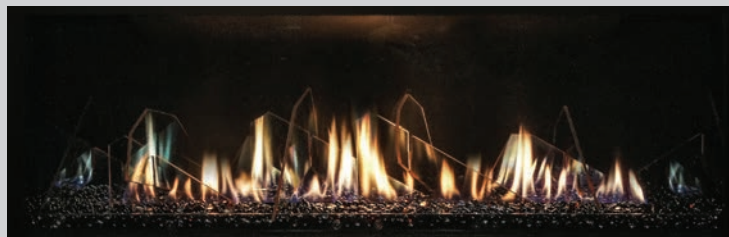

One Fireplace - Multiple Looks

Have it your way -

we've made it easy to customize the CML-58 to your taste.

Start with the basic black interior and then add in any combination of the interior options (glass media, 12-piece glass log set, mirrored firebox liner or lava stones) to achieve the perfect look.

Whatever variation you choose, they all create amazing effects within the firebox, ranging from a subtle glow to a firebox full of colorful flames and lights reflecting off the mirrored glass logs, firebox liner and glass media.

CML-58 with CML-GLASS-LOGS and Glass Media

Not only do the glass logs reflect the flames, but also the accent lights from below and glass media. Even when the heat is not needed and the flames are turned off, the light reflections create a subtle effect good for year-round ambience.

CML-58 with LAVA-STONE-20

New to the interiors collection, the Lava Stones are a great alternative to the all glass interior and give the contemporary look an earthy feel.

CML-58 with LAVA-STONE-20 and CML-GLASS-WALLS

When in combination with the glass walls, the lava stone reflections give the illusion of multiple fires that can be seen from any angle in the room.

Clean Trim front in Mabogany finish.

Outside Dimensions: 48"W x 22-3/4" H

Shown on the CML-58 with CML-GLASS-WALLS and glass media.

Stellar Hearth Products decorative front options

put the perfect finish around the beautiful fire and blend in seamlessly with your décor.

Clean Trim front in Gun Metal Gray finish
Outside Dimensions: 48" W x 22-3/4"H
Shown on the CTL-58.

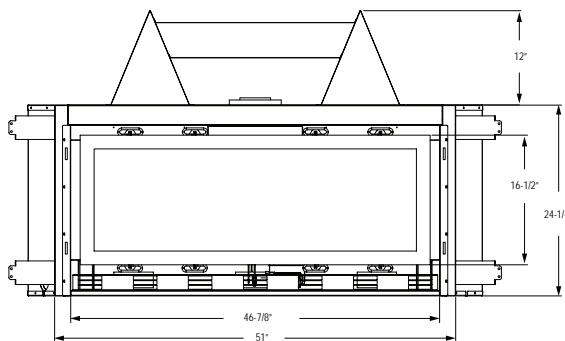

*The Clean Trim and Accent fronts put the perfect finish
around the beautiful fire and transition easily between traditional and contemporary décors.*

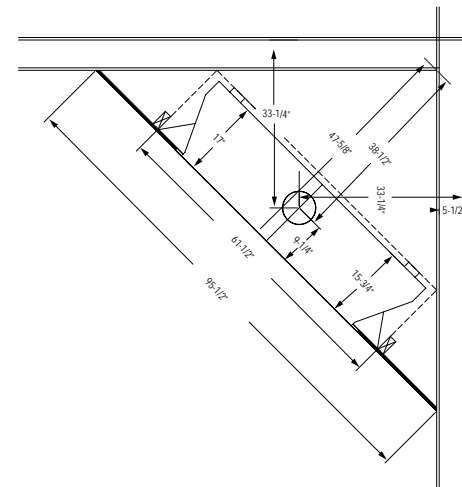

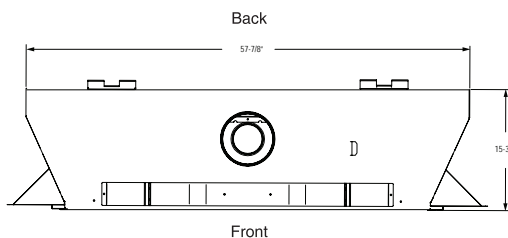

Shown with Accent front in Black Suede finish
Outside Dimensions: 53-1/2" W x 25-1/2"H
Shown on the CML-58 with CML-GLASS-WALLS and glass media.
